

Ultra Seal® XLR

(Delaying Agent)

Ultra Seal® XLR is a delaying agent and is used to control pump time for Poly Plug® slurries. The concentration of Ultra Seal® XLR is dependent on static bottom hole temperature.

Physical Properties:

Physical Form:	Liquid
Color:	Clear
Odor:	Slight
Solubility in Water:	Soluble
Density:	10.9 – 11.1 ppg
Packaging:	5 Gallon Pail

Guidelines:

100° F	= 1 to 3 ppb of mix water
150° F	= 6 to 8 ppb of mix water
200° F	= 10.5 to 15.6 ppb of mix water
250° F	= 15.6 to 25 ppb of mix water
300° F	= 25 to 40 ppb of mix water
